

THE BEST WAY:
COMBINING ALL WAYS.

WE DO LOGISTICS: **FIT FOR THE FUTURE.**

We move 2.8 billion tonne-kilometres of transport every year – environmentally friendly by train and ship.

Inland waterway vessels and railways emit only around a quarter of the CO₂ per tonne transported compared to lorries.

The background image shows a port scene. On the left, a long train of brown freight cars is parked on a paved area. In the center, a large green gantry crane is positioned over a barge in a canal. The barge is white with a cabin and has the letters "AR" visible on its side. In the background, there are stacks of blue and white containers and some industrial buildings under a clear sky.

OUR TRANSPORT OFFER: **CLEVERLY COMBINED.**

Our strength lies in the mix: RheinCargo offers trimodal connections between water, rail and road, thus creating complete logistics solutions.

**YOUR ADDED VALUE:
EVERYTHING FROM A SINGLE SOURCE.**

We offer customised, flexibly organised plans for your transports: punctual, safe and environmentally friendly.

WE ARE COMMITTED TO YOUR SUCCESS!

← **SASCHA ODERMATT**

Managing Director, Neuss branch

“For me, RheinCargo means the compatibility economic thinking with ecological action.”

→ **GÖTZ JESBERG**

Managing Director, Cologne branch

“RheinCargo to me symbolises customised logistics services from the region to the rest of the world.”

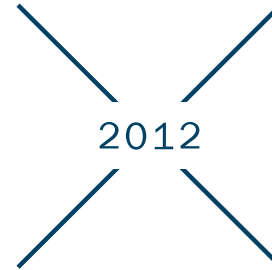

RHEINCARGO

MODERN SERVICE PROVIDER WITH A LONG-STANDING TRADITION
